Grade 5 & 6 Career Trek – Tuesday, February 23

Looking ahead: MARCH

Daylight savings time-March 14th (Spring your clocks ahead!!)

St. Patrick's Day– March 17th~Wear Green

Pt Interviews-Evening on the 18th and Morning of the 19th.

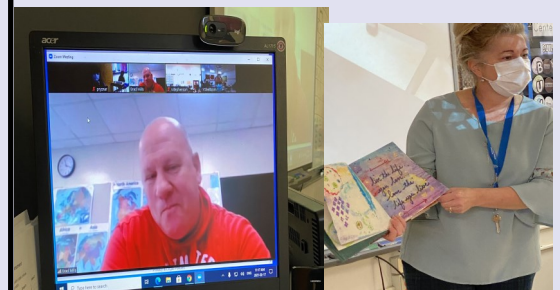

READING FOR
6 MINUTES A DAY
REDUCES STRESS
BY 68%.

I LOVE TO READ MONTH

We are into our last week of I Love to Read Month and I encourage everyone to continue reading and going on as many adventures as you can or learn about so many interesting things in our world through the pages of a book.

I want to take this opportunity to thank our Manitoba Authors, Mr. Brad Mills and Mrs. Lindsay for speaking with the students about how they journaled their thoughts and adventures into two incredible books.

I believe the interest in journaling has spread to some of our students. Please make sure all students have their reading logs signed and returned to school for this Friday. We can't wait to see the results!!

Principals message- A big thank- you to Val Caldwell for her presentation last Thursday – Parenting during a Pandemic. We had a great turn out and some welcome conversation about some of the challenges specific to our current situation. We will be discussing the possibility of offering another session in March if you are interested in joining in.

I sure hope that we have seen the end of -50 and prolonged indoor recess, until next year. The warm weather is going to feel terrific this week.

Enjoy the sunshine and have a great week.

Mrs. Ryznar

Kindergarten!

Hello everyone,

Exciting news in the Kindergarten room this month is that Fox became a big brother on Valentine's Day. Congratulations to his family for the safe arrival of his baby sister Crimson. We also celebrate Ivy's 6th birthday, the first of the class to turn 6.

This week we will continue with the I Love to Read activities and some assessment for March report cards. I will be testing upper- and lower-case alphabet recognition and sounds of letters. For numeracy, recognition of numbers to 20.

Thankfully, the weather has improved so we can continue enjoying being outside for physical education and recess.

Mrs. Lindsay

1st

2nd GRADE

ELA:

Grade 1: using and identifying verbs in past tense.

Grade 2: using and identifying verbs in past, present and future tense.

Math

- Grade 1: identifying a number that is 1 more, 1 less, 2 more and 2 less

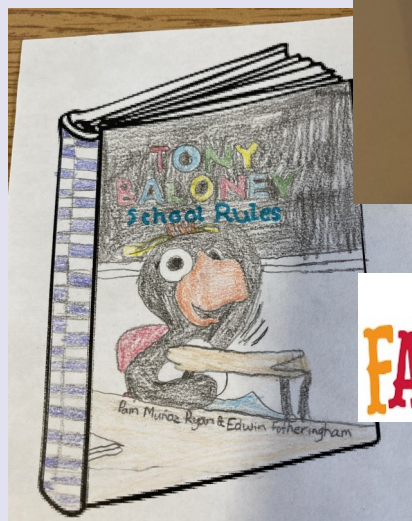

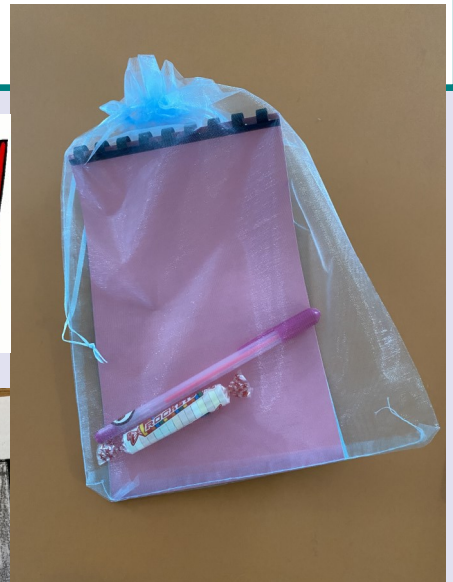

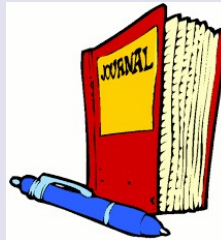

Grade 2: review place value and identifying a number that is 1 more, 1 less, 2 more and 2 less

Reminders:

We will be celebrating our 100th day in school on Friday. I will be sending out an email this week to explain some of the activities I have planned for that day.

I hope everyone has a wonderful week!

Miss Ushey

THESE ARE A FEW OF MY
FAVORITE THINGS

Hello everyone,

I hope you are staying well and enjoying some of the milder weather we are having! Here are a few things to note as we move into the next few days:

ELA: We will be working on connecting to character and will be exploring this by focusing on Fairy Tales. We will be talking about the parts of a Fairy Tale and will also be writing our own that we will "publish" and take home.

Math: In math we will be starting our division unit this week. Please let me know if you would like some division/multiplication fact family math games for some extra practice. 😊

Science: We are currently working on our final design project for our magnetic forces unit. We will be moving on to talk about soils next.

Social Studies: We are now exploring Manitoba's History in our new unit.

Have a wonderful week everyone!
Miss Krahn

I hope everyone had a great weekend and was able to enjoy the warmer weather. Our Career Trek session tomorrow is about Biomedical Engineers. Next week's topics are Marketing Specialists and Archaeologists.

We will be skiing during phys. ed. classes again this week so the kids need to be dressed appropriately.

Here is what we are up to in our classes:

Math – Fractions, Ratios and Percentages

ELA – Literacy Choices & Novel Study Jobs

Science – Four Forces of Flight

Social Studies – Dawson & the end of the Gold Rush

Phys. Ed. – Low Organized Games & X-country Skiing

Health – Responding to Accidents

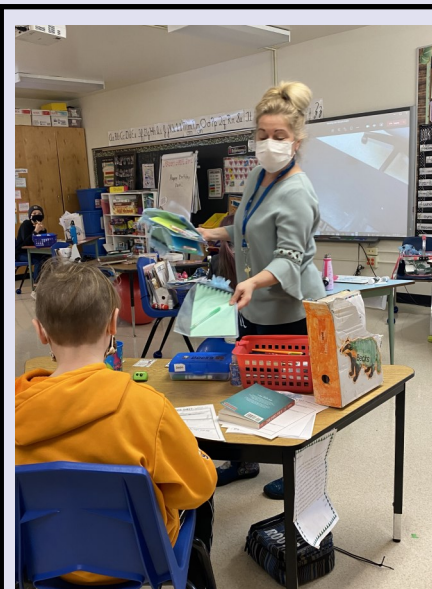

REMINDERS:

Career Trek – February 23 & March 2

Novel Jobs - Thursday

TUSC – Thursday

Have a great week.
S. Stephenson

Manitoba Authors in the School

This month we had the great pleasure to have two Manitoba Authors talk with our students about their writing adventures. Journaling was a huge part of that process. Everything was documented and recorded into a journal. Whether it was about Mr. Mills, Krazy Hunts, which documents his adventures travelling to other parts of the world absorbing the culture and traditions during his outdoor adventures, then to our very own Mrs. Lindsay who shares a great message in Ruby's Bubble that helps us to remember to be mindful of our space and others personal space and helps children to practice the skills which will allow them to interact with others successfully and respectfully. Mrs. Lindsay tied into her presentation a gift of a homemade journal for students to write their thoughts, adventures, or become creative and start an art journal. The possibilities are endless and for this we thank our Manitoba Authors.

Well I'm so glad that cold snap is over, and we have moved onto much milder temperatures. A week left of February and onto March we go.

Around the Classroom:

7 Math: wrapping up our unit on solving equations, quiz by week's end, then we will move onto circles

8 Math: continuing to work with the Pythagorean Theory, quiz next week sometime

Science: examining the water crisis that exists amongst the Indigenous population of Canada

Social Studies: examining Ancient Egypt's religion, the mummification process and hieroglyphics

French: verb quiz Thursday, then we will begin to work on reading small excerpts and gathering meaning from them

Health: studying the male reproductive system

Get out there and enjoy this great weather!
Mrs. T

Grade 7/8 – ELA~Mrs. Ryznar

Grade 7/8 – ELA – We are finishing up our inquiry project presentations this week and we will be starting a new read aloud project, some work with our own choice novels in readers workshop and some work on our memoirs and class collection of writing.

We started to introduce the Thrival program last week which is geared toward mental health promotion and introduction to daily practices that protect and promote our mental wellbeing. Based in mindfulness, students will learn how to bring their attention to the present moment. All students in grade 7 and grade 8 were gifted Thrival kits that had a journal and several other items that we will be working with over the next few months. The program will be delivered by me to the grade 8's and by Ms. Nichols to the grade 7's. Students will take their kits home at the end of the year.

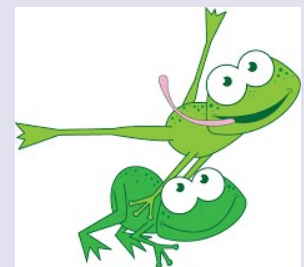

Have a wonderful week.

Mrs. Ryznar

Grade 7 & 8 SHOPS CLASS

We are officially working on our house floor plan layouts - it's tricky keeping it under 1600 sq ft! The kids are working really hard and I'm very proud of their progress so far!

Ashley Delorme

Enjoy the last week of February cause we are hopping quickly into March!!
