Upcoming Events

Grade 8 : Individual pics on Tues and Thursday

Physically Distanced Classroom photos happening on Thursday.

Grade 7/8 : The assessments are due by June 21st. If students are done by June 18th they are welcome to hand them in and do not need to attend on June 21st. June 21st will be a day to complete any incomplete assignments.

Just a reminder to all students to please dress for the weather. For the rainy days students can bring a rain jacket, rubber boots, etc. For our hot sunny days, hat and sunscreen.

Principals Message

Well, it looks like we are through the crazy heat wave from last week. I thank you all for bearing with us and remaining diligent around the protocols that we currently have in place. I know that they are not always easy to follow but these are the things we need to continue to do for the next 17 days of school. Your kids have been complete rock stars through this entire year and they have been troopers as far as following protocols the at school.

Hello OES families one of our neighboring school communities has experienced great loss due to fire. We ask our school community to donate in support of this family. OES will be accepting donations for our neighboring school community. Please see below details of types of donations needed. All COVID-19 -19 protocols will be followed, please do non-contact drop off outside the main doors of OES this week. See details below for specific needs.

(They also can be dropped off directly at the South Quill health office.)

Here are the specifics:

Baby girl 12-18 months

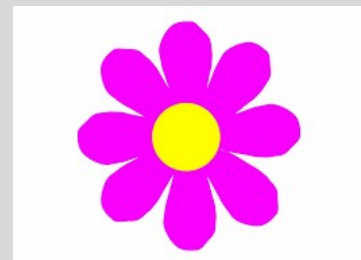

Girl 6x

Women's M to L

Women's XL to XXL

Men's L

Monetary donations can be accepted as well.

Kindergarten!

Show and Tell has become very popular in the kindergarten room. I allow the students to put their special item in the "Wonder Box" first thing in the morning. We usually get to do two before Oh Canada. If we need additional time the students will show it later in the day. These items are not touched by anyone else and will be put back in their bags.

Mrs. Lindsay

1st

2nd GRADE

I hope everyone enjoyed their weekend. It was a hot one!

This week we will be doing a lot of writing. Students are focusing on making stories with clear beginning, middle and end. We've spent time talking about how stories need a main character and a setting.

In math we have been talking about 2D and 3D shapes. Students have been enjoying building towers out of a variety of shapes. We have also been using modeling clay and creating our own shapes.

We have finished our last social studies unit on Canadian Communities. This week we will start our last science unit on the water cycle. I hope everyone has a wonderful week.

Ms. Ushey

Fox wanted to bring his favorite item to school, which happened to be a chicken. Now that was a first for me. He even transported it in his car on the way to school. That was pretty cool!

Mrs. Lindsay

Hi everyone,

I hope that you had a great weekend and were able to stay cool! Here are some of the topics we will be learning about in class:

ELA: We are continuing our persuasive writing unit. Some of our students will have "published" their good copy books to take home by the end of this week/next week. We are also greatly enjoying the *Land of Stories!*

Math: We are currently working on our area and perimeter unit in math. We will be designing our own rooms, city and buildings using our skills!

Science: We are continuing our plant unit; we will be focusing on how plants impact food chains and the benefits of eating plants.

Social Studies: This week we will be focusing on the history of Canada's North and will be learning about some of the traditions of the Inuit people.

Enjoy your week!
Miss Krahn

I hope everyone had a good weekend and was able to manage the heat somehow. It is hard to believe we are down to the last month of school.

Both grades will be busy writing MRLC math assessments 2 days this week. The assessments are written each June and the data is used to help me plan and adjust my teaching, not to formulate the students' grades on report cards.

Here is what we are up to in our subjects:

- Math – Geometry
- ELA – Literacy Choices
- Science – Electricity Project and Unit Test
- Social Studies – World War 1
- Phys. Ed. – Low Organized Games & Track & Field
- Health – Interpersonal Skills

REMINDERS:

- TUSC – Wednesday
- Science Test - Wednesday

Have a great week.
Mr. Stephenson

The grade 7/8 class were busy planting their seedlings into our flower boxes. We will have Tomatoes , Cucumbers, Peppermint, Rosemary, and Basil.

Thank you for adding some more greens to the Learning Garden.

What a beautiful hot start to June, this sunny warm weather is just what we all needed!

Around the Classroom:

Math 7: working on math review, final assessment takes place June 14-18. They have a road trip assignment as well to complete.

Math 8: working on math review, final assessment takes place June 14-18.

Science: working on their final assignment, creating a Bill Nye Video

Social Studies: beginning to work on their final assignment, Creating a Civilization

French: continuing to practice speaking while playing Bocce and learning about the invention of the Olympics through video

Health: they need to finish presenting their STI power points, then there will be a quiz June 17

Hope everyone is able to get out and enjoy the warm weather and eat some ice cream.

Mrs. Tyschinki

Grade 7/8 ELA

We have wound down to the end of our assignments in ELA. Today is our last lit circle meeting and students will hand in those packages. Their last genius hour presentations are on Thursday this week. We will be starting our final assessment project today. This is something that the students will be using ELA Classes at school to complete. They will have a total of 22 class periods to complete this project. It is fairly extensive and allows them to demonstrate the ELA skills, in reading and writing, that they have learned over the course of the year. The assessments are due by June 21st. If students are done by June 18th they are welcome to hand them in and do not need to attend on June 21st. June 21st will be a day to complete any incomplete assignments. We will be providing the grade 8's with an opportunity to go and tour ECI on Wednesday June 23rd at 9:00 AM. They will travel by bus there and back and can be picked up when they return to the school. I will send a note with all those details.

Take Care of yourselves and each other
Mrs Ryznar

Mrs. Nichols news....

Social Studies

Students are working on their final assessment project creating a civilization using topics learned throughout the year in World History.

Science

Grade 7's have teamed up with Grade 8's to create a "Bill Nye" type video using a topic covered during the science program this year.

Grade 7/8 SHOPS

We will be completing our blanket pillows and spending some time outside for our last couple classes. I've had a great year getting to know the kids and look forward to seeing them around again next year. Enjoy your summer break!
